

Kavinace*

Promotes healthy sleep

Kavinace promotes sleep, reduces anxiousness, and supports normal levels of GABA, a neurotransmitter made in the brain. It is commonly recommended for those with elevated levels of glutamate and phenylethylamine (PEA).

Why Kavinace?

As a calming neurotransmitter support, Kavinace may help with:

- Stress
- Anxiousness
- Irritability
- Hyperactivity
- Sleep issues
- Jetlag

Benefits of Kavinace Ingredients

Vitamin B6 - 2mg/ Taurine and 4-amino-3-phenylbutyric acid:

- Important cofactors for the synthesis of

Phenibut (4-amino-3-phenylbutyric acid)

- A GABA derivative that easily crosses the blood/brain barrier, binds to GABA receptors, and helps increase GABA levels
- Helps inhibit the excitatory neurotransmitter phenylethylamine, while providing anti-arrhythmic, and anti-aggression

Taurine

- May function as a calming amino acid.
- May increase GABA levels by increasing synthesis, preventing breakdown, and blocking reuptake of GABA

Did you know?

GABA is a neurotransmitter that is produced by the body and is not found naturally, in any food.

Suggested Use: Take 1-2 capsules one to two times daily or as directed by your health care practitioner. Use only before sleep.

Supplement Facts		
Serving Size: 2 Capsules		
Servings Per Container: 60		
Amount Per Serving	% Daily Value	
Vitamin B6 (as pyridoxal 5'-phosphate)	2 mg	100%
Proprietary Blend	950 mg	†
Taurine and 4-amino-3-phenylbutyric acid HCl		
† Daily Value not established.		

Other Ingredients: Microcrystalline cellulose, Vegetable capsule (Hypromellose, water), and Magnesium stearate (vegetable source).
